

[EXTERNAL] Access Fees

Greg Thomas <greg_thomas@charter.net>

To:FWP Fishing <fwpfsh@mt.gov>;

I am in support of there being fees for using public fishing access sites and hope that the money garnered from those fees would be used for maintenance and to potentially secure additional access sites around the state, all for public access. I also support a use fee for individuals who recreate on the rivers, especially for anglers and people who float stretches of rivers in inner tubes and other floatation devices. In the Missoula and Bozeman areas these people seem most likely to degrade an access and leave trash behind. They should pay for the continued maintenance of those sites.

[EXTERNAL] commercial access

dlyoumans <dlyoumans@bresnan.net>

Fri 11/6/2020 6:22 AM

To:FWP Fishing <fwpfsh@mt.gov>;

I do NOT want to see commercial fees for access. If there is to be one I would consider a small one time only fee addressed on my annual conservation tag. I would much prefer the agency concentrate on bringing up the ungulate population to higher levels in areas of northwestern Montana thereby increasing license purchases by MFWP biggest costumer...hunters.

[EXTERNAL] Proposed commercial use fee schedule for fishing access sites and wildlife management areas.

sagecoulee@protonmail.com

Fri 11/6/2020 11:35 AM

To:FWP Fishing <fwpfsh@mt.gov>;

To who it may concern ,

I just wanted to write and comment on proposed commercial use fee schedule for fishing access sites and wildlife management areas. I dont believe that these fees are right. If anything Montana FWP should be working to lower or eliminate fees all together. I dont have any plans to do any commercial use on fishing access sites or wildlife management areas. As a Montana State citizen I feel that these areas are public property. The State should not be charging anyone, wether commercial or private for the use of our own land. If any steps can be made to at the very least to ease regulation and/or burden of commercial use, it should be done. If my comments could be heard at any upcoming meetings about this issue, I would appreciate it. Thank you.

Sincerely,
Michael Coulimore
